RE: **Internet Training**

STUDENT: _____

DATE: _____

At the beginning of the school year, a survey was held during first block. As a result of that survey well over 300 students were identified as students that do not hold current Internet Accounts with our school district. After discussing possible solutions to this problem with Mr. Carty, a plan was formulated to hold several mass training sessions led by three staff members. Many factors made it difficult to schedule those classes.

I decided instead to hold what I hope eventually will be weekly sessions for those identified students.

The first session will be held on March 28th during the first block. The library will be closed to other students at that time. The student is to report to you before coming to the library. He/she will be at the library for the entire block. If you are having a test that day it is your call whether that student proceeds with the scheduled training. If you have any questions please call me at extension 2450 or 2451. Thank you.

Susan Wilson
